

Behaviour Support Plan

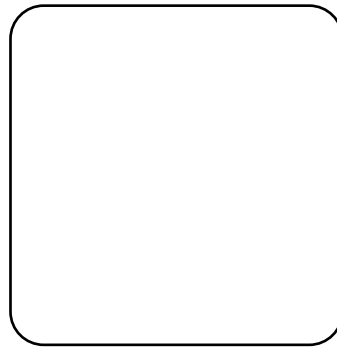

Setting Event

What is in, or missing, in the environment that influences behaviour to occur?

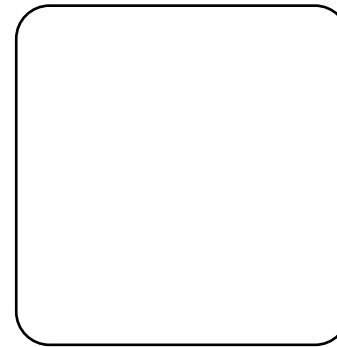

Antecedent

What cues the problem behaviour? What is happening right before?

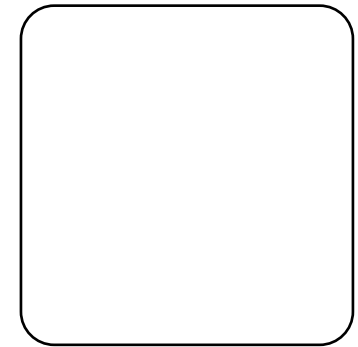

Problem Behaviour

What does the problem behaviour look like? What did the person do?

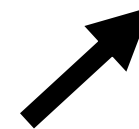

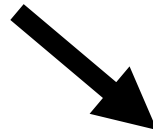

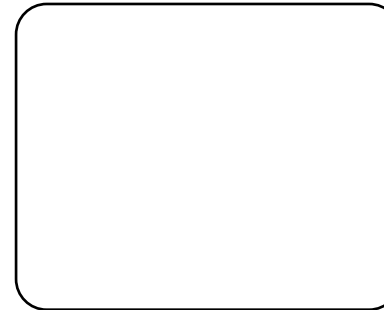

Consequences

What happens right after the problem behaviour? The result.

Replacement Behaviour

What do you want to teach the person to do?

Behaviour Support Plan

Intervention Strategies

Setting Event Strategies What can you put in or take out of the environment prior?	Antecedent Strategies How can you change the cue to decrease the behaviour?	Teaching Strategies How are you going to teach the new behaviour?	Consequence Strategies What are the results for the person exhibiting the new behaviour and the results for them exhibiting the problem behaviour?
			<u>What will encourage the replacement behaviour?</u>
			<u>What do you do if the problem behaviour occurs?</u>
